*ADM-10.1
(Memo for the record)*

MEMORANDUM OF UNDERSTANDING

SUBJECT: OEL Conference Area (Room 2E37)

25X1A

REFERENCE: Telephone Conversation [redacted]

1. The Director of ELINT reluctantly agrees to the request of the Chief, Administrative Support Staff, DD/S&T, to temporarily release Room 2E37 for use by OCS personnel. It is understood, however, that this is a temporary arrangement and at such time as the physical area modifications are completed in OCS, Room 2E37 will be returned to the control of the Office of ELINT.

2. This Office would like to re-emphasize that Room 2E37 serves as the only available OEL area where discussions with contractors may be conducted, considering the second floor barrier closure and the fact that entry to Room 2E19 (ASD area) requires special security clearances. The loss of Room 2E37 will result in contractor conferences being held in the Director's conference room (Room 2F20) which, although open for limited access during duty hours because of the barrier situation, is in fact technically located behind the barrier. Each time that a contractor is brought directly into the conference room area, there is the ever-present possibility of a security violation being registered against the Office and the Directorate.
